Cordless PRO300SG2 Decking System

The cordless Quik Drive® PRO300SG2 Decking System: a complete auto-feed screw driving system powered by the DeWalt® cordless driver motor that makes deck installations fast and easy. The powerful 2,000 rpm, 20V cordless DeWalt brushless driver motor and lightweight extension arm make this Quik Drive system more ergonomic than conventional installation systems: no cords to trip over, no heavy equipment to set up, and more freedom to move about the work area untethered.

Non-skid teeth are reversible and replaceable

QDDECKCLIP-RC

Applications: Decking on decks and docks, subfloor to wood or steel, wall plates, stair treads, sheathing, fiber-cement siding to steel

- Quik Drive cordless, plus our low-torque fasteners, drives more screws per battery charge.
- Slash the setup time. Eliminate cord and hose maintenance and tangle. Reduce tripping and electrical shock hazards.
- Quik Drive Cordless PRO300S can be used without the lightweight extension arm as well.
- Reversible and replaceable non-skid teeth.
- Lightweight G3 extension for better ergonomics.
- Precise, self-locking depth adjustment for consistent fastener drive depth.
- Decking noseclip (QDDECKCLIP-RC) positions the screw on the deck board and centers it on the joist for an easy, uniform installation from a standing position.
- The patented curved collation strips (US Patent 7,051,875) hold the screws up and away from the work surface, making moving and positioning the tool easier. The collated strips are also pointed on the inserted end to simplify loading.

Limited lifetime warranty on attachment and extension, one-year limited warranty on screwdriver motors (see specific manufacturer's warranty for more information)

The cordless PRO300SG2 system includes:

- PRO300SG2 decking attachment
- Lightweight G3 extension for stand-up driving
- DeWalt 2,000 rpm 20V cordless driver motor
- Two lithium ion batteries and charger
- Decking noseclip for accurate and consistent fastening
- Soft carrying case

PRO300SG2 decking attachment tool is also sold separately. See parts table below.

PRO300SG2 Decking System

Non-skid teeth are reversible and replaceable

QDDECKCLIP-RC

Applications: Decking on decks and docks, subfloor to wood or steel, wall plates, stair treads, sheathing, fiber-cement siding to steel

- Expanded depth settings for high-density flooring materials
- Reversible and replaceable non-skid teeth
- Uniform toenailing and countersink on slick surfaces
- Sure-grip guide tube increases stability for a broad range of screws
- Decking noseclip (QDDECKCLIP-RC) positions the screw on the deck board and centers it on the joist for an easy, uniform installation from a standing position.
- The patented curved collation strips (US Patent 7,051,875) hold the screws up and away from the work surface, making moving and positioning the tool easier; they are also pointed on the inserted end to simplify loading

Limited lifetime warranty on attachment and extension, one-year limited warranty on screwdriver motors (see specific manufacturer's warranty for more information)

The PRO300SG2 system includes:

- PRO300SG2 decking attachment
- Extension for stand-up driving
- Choice of Makita® or DeWalt® screwdriver motors
- Screw quiver for keeping screws at your fingertips
- Rugged tool case to protect your equipment
- Decking noseclip for accurate and consistent fastening

The decking noseclip positions the screw on the deck board and centers it on the joist for an easy, uniform installation from a standing position.

PRO300SG2 decking attachment tool is also sold separately. See parts table below.
