

Standing-Seam Metal Roofing

PROPP150G2 Metal Roofing Attachment

Applications: Panel clips for standing-seam roofing, stitching to steel decking, panel flanges for snap-and-seam metal roofing

- Innovative Precision Placement nosepiece allows for easy location of the holes in standing-seam metal roofing clips
- Auto-feed mechanism provides hands-free screw advancement, eliminating handling of individual screws, cutting installation time in half
- Screws available in three head styles with two levels of corrosion resistance

Limited lifetime warranty on attachment and extension, one-year limited warranty on screwdriver motors (see specific manufacturer's warranty for more information)
