

# PRO250G2 Subfloor System

• **Non-skid teeth** increase stability and provide uniform toenailing and countersink on slick surfaces

**Applications:** Subfloor to wood or steel

- Expanded depth settings for appropriate countersink in a variety of applications
- Reversible replaceable non-skid teeth attachment
- Uniform toenailing and countersink on slick surfaces
- The patented curved collation strips (US Patent 7,051,875) hold the screws up and away from the work surface, making moving and positioning the tool easier; they are also pointed on the inserted end to simplify loading

*Limited lifetime warranty on attachment and extension, 1-year limited warranty on screw-driver motors (see specific manufacturer's warranty for more information)*

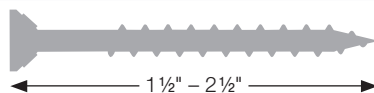

**The PRO250G2 system includes:**

- PRO250G2 subfloor attachment
- Extension for stand-up driving
- Choice of Makita® or DeWalt® screwdriver motors
- Screw quiver for keeping screws at your fingertips
- Rugged tool case to protect your equipment

**PRO250G2 subfloor attachment tool is also sold separately.**

**Drive These Collated Screws**

Strong-Drive® WSNTL Subfloor screw	p. 202	CBSDQ sheathing-to-CFS screw	p. 213
