

Drive More Screws with Less Hassle

No cords ... no hoses ... no problem!

Introducing the new cordless Quik Drive PRO200SG2 Multi-Purpose System: a complete auto-feed screw driving system powered by the 2000 rpm, 20V cordless DeWalt® brushless driver motor with adjustable torque.

Eliminate the need for compressors, generators or power to run fastening equipment. Subfloor installations are fast and easy using this lightweight, portable Quik Drive System. The cordless DeWalt driver and lightweight extension make for a fast, ergonomic and less-fatiguing installation.

- Quik Drive cordless, plus our low-torque fasteners, drives more screws per battery charge.
- This PRO200SG2 requires less skill training than traditional installation methods, allowing a first-day apprentice to keep pace with a seasoned veteran.
- Efficient: Slash the setup time. Eliminate cord and hose maintenance and tangle. Reduce tripping and electrical shock hazards.
- System includes two 5.0-amp hour lithium-ion batteries and charger.
- Quik Drive Cordless PRO200SG2 Multi-Purpose System can be used with or without the lightweight extension.

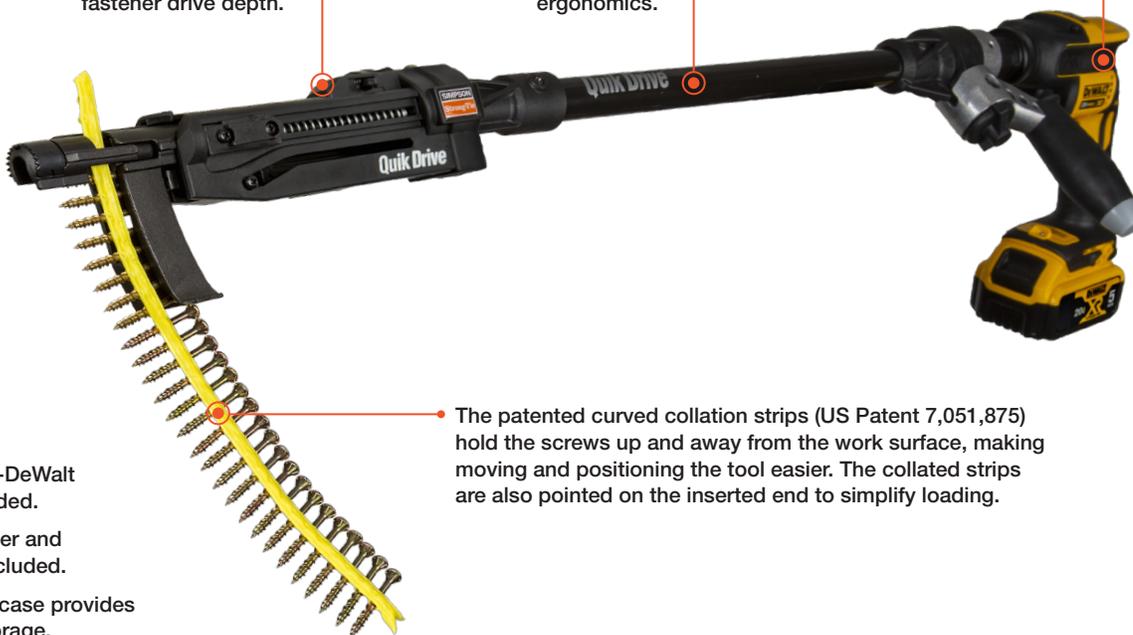

The cordless PRO200SG2 Multi-Purpose System with DeWalt driver motor

Features

Precise, self-locking depth adjustment for consistent fastener drive depth.

Lightweight G3 extension for better ergonomics.

Powerful DeWalt cordless driver motor.

The patented curved collation strips (US Patent 7,051,875) hold the screws up and away from the work surface, making moving and positioning the tool easier. The collated strips are also pointed on the inserted end to simplify loading.

- Quik Drive-to-DeWalt adapter included.
- Battery charger and 2 batteries included.
- Soft carrying case provides protective storage.

The Cordless Quik Drive PRO200SG2 Multi-Purpose System

Drive More Screws with Less Hassle

The complete kit includes: PRO200SG2 attachment, G3 extension, Quik Drive-to-DeWalt® adapter, DeWalt Driver, battery charger, 2 batteries, soft case
